PHẦN II. ĐỌC HIỂU — 10 CÂU

Read each passage and choose the best answer (A, B, C, or D).

Đoạn văn 1 — A missing pallet

On Wednesday morning, a truck carrying spare parts arrived at Northgate Distribution Centre. The transport document listed 16 pallets, but the receiving team could find only 15 on the truck. The team leader checked the labels on all 15 pallets and confirmed that they belonged to the same shipment. She then contacted the carrier to find out what had happened.

The carrier checked its loading records and discovered that one pallet had been placed in a separate area for a second weight check. Although the check was completed before the truck departed, the pallet was never moved back to the loading area. The carrier arranged for it to be delivered

Tài liệu thuộc bản quyền của TS. Trần Quang Vũ, Z, M: 0913106015

on a second truck that afternoon. In the meantime, the receiving team recorded the 15 pallets it had received and kept the delivery record open.

When the last pallet arrived, the team checked its label and added it to the delivery record. Following the incident, the carrier introduced a final check before each truck leaves. Staff now compare the number of pallets actually loaded with the number on the transport document. If the counts differ, the truck stays at the loading bay while staff investigate.

31. What first alerted the receiving team to the problem?
A. One pallet had a damaged label.
B. The truck arrived later than expected.
C. Several pallets belonged to a different shipment.
D. There were fewer pallets on the truck than the document listed.

32. Why was one pallet moved to a separate area?
A. It needed to be weighed again.
B. Its label had to be replaced.
C. It was going to a different distribution centre.
D. The driver needed to load it first.

33. In paragraph 2, what does "it" in "arranged for it to be delivered" refer to?
A. The loading record.
B. The truck.
C. The missing pallet.
D. The transport document.

34. What did the receiving team do while waiting for the last pallet?
A. It sent the other 15 pallets back.
B. It entered the 15 pallets in the delivery record and kept the record open.
C. It asked the driver to change the transport document.
D. It closed the delivery record and opened a new one.

35. What is the purpose of the carrier's new final check?
A. To make sure each truck carries the number of pallets listed on its transport document.
B. To make sure the receiving team checks every pallet label.
C. To reduce the number of trucks used each day.
D. To weigh every pallet twice before loading.

Đoạn văn 2 — A new guide for first-time users

A customs office noticed that many businesses using its online enquiry form for the first time left out important information. Some users de-

Tài liệu thuộc bản quyền của TS. Trần Quang Vũ, Z, M: 0913106015

scribed their problem without entering a reference number. Others attached files with names such as “scan1” or “new file,” making it difficult for officers to identify the documents. Officers often had to email users for clarification before they could deal with the enquiry.

To address the problem, the office published a short guide next to the online form. The guide includes a sample enquiry, explains when to enter a reference number and shows how to name attachments. For example, it advises users to include the document type and date in each filename. The office also added a reminder that appears when a user tries to submit a form with a required field left blank.

In the month before these changes, officers had to request additional information for 35 out of every 100 enquiries. In the first month afterward, the figure fell to 18 out of every 100. The office plans to review another three months of data before deciding whether to introduce similar guides for its other online forms.

36. What problem does the first paragraph describe?
A. Businesses sent too many enquiries to the wrong office.
B. Officers could not open any files attached to the form.
C. The online form was unavailable to new businesses.
D. Some enquiries lacked information officers needed to deal with them.

37. According to the guide, what should users include in an attachment’s filename?
A. The officer’s name and email address.
B. The document type and date.
C. The user’s address and telephone number.
D. The file size and page count.

38. When does the new reminder appear?
A. When a user reads the sample enquiry.
B. When an officer asks for more information.
C. When a user tries to submit the form with a required field left blank.
D. When a user uploads a file with the date in its name.

39. How many fewer enquiries per 100 required additional information in the first month after the changes?
A. 17.
B. 18.
C. 35.
D. 53.

40. What does the office plan to do before deciding whether to publish similar guides?
